

SPINAL CORD SOCIETY

2008 DRIVE TO CURE PARALYSIS

“A QUANTUM LEAP“

That's what the director of our research center called the results of our latest animal trial. For the first time, anywhere in the world, we have produced not just nerve regeneration, but actual **refunction** to the tune of a 30% return in the adult, chronic spinal cord injury! While others have claimed refunction in the acute, or freshly made injury, we are the only ones to have had significant success in the chronic, or long term injury; which is the version that must be conquered if we're going to actually cure anybody. SCS has been virtually alone in working on the chronic injury and now we have truly exceeded what anyone else has done, even on the supposedly easier acutes. We are now working to prove that this treatment is reproducible, plus we are testing more ingredients which should improve it even further. We expect to have the answers by early next year and then the next step will be to take it to human trials. The beauty of our treatment is that all of the ingredients and techniques we use are already approved for use in humans. So that transition should be relatively quick and simple. Once we confirm our findings this will be beyond ground-breaking, it will be earth-shaking in the world of spinal cord injury cure. By this time next year we could truly be making history.

WE DESPERATELY NEED YOUR HELP--

With the shape of the economy right now, fundraising is down everywhere and we are no exception. In fact, it's worse for us because we don't take government grants. The work we are doing now is very expensive and it would be terrible to have to slow down because of a lack of money. All of the funding for our research center comes from fundraisers like this. Without your help we may not be able to keep this fast-paced research going and we will be faced with many more years of paralysis than necessary. With your help we can make a world where not only we, but all future generations can soon be free of this terrible injury.

If you would like to contribute to our cause, fill out the form below and send it, along with your donation made out to SCS, to the return address listed. Please give as much as you can.

As always, THANK YOU for anything and everything you can give.

-Please check with your employer to see if they have a matching fund program for charitable donations. This is an easy way to double your contribution. Just get and fill out your part of the form and send it with your donation. Thank's.

PLEASE TRY TO RETURN BEFORE OR ABOUT OCT. 31, 2008 _____
