

QUESTION ?

What is the one thing every person can do, whether paralyzed or not, no matter how severe their injury, and even with no free time to give, to find a cure for paralysis?

(see reverse side for answer)

ANSWER :

ORDER THE NEWSLETTER !!

The SCS Newsletter is the backbone of the organization. The funds generated by it cover our administrative costs. It comes out monthly, averages about 22 pages in length and is filled with the most current information about spinal cord injuries and cure-oriented research. It is the cheapest, least expensive way of staying up-to-date in the area of SCI research & treatments.
